

WHAT IS BITBATON?

BitBaton is an advertising platform where our members can promote their business or ventures within our network. You will have the ability to place banners or text ads on our website where our members will be able to click and engage with your placement.

Many online marketers use websites like ours to promote their businesses. We get thousands of views to our website which can increase your visibility to other people. Our ad credits are done by impressions. Which means when you place an ad on our website, you will be in rotation with other members of our site. Level 2 will be 4 people who automatically comes under you. Then level 3 will have 8 people. Once you have completed level 1 to 3, you are re-entered back to level 1 with 2 positions.
